WORK EXPERIENCE

Transcendent Endeavors, *Software Engineer*

New York, NY || *October 2023 - Present*

- Contribute to and lead development of Blossom, a language-learning platform spanning iOS, Android, web, and backend services.
- Build features and demos that help secure \$2M+ in grant funding.
- Spearhead UI/UX design for the product by creating wireframes, user flows, and interaction patterns.
- Collaborate with R&D and learning specialists to translate educational research into product features.
- Optimize a custom text-to-speech system for Anishinaabemowin used by Ojibwe communities, improving synthesis speed by 29× and eliminating static artifacts.

KPMG US, *Evidence and Discovery Management Intern*

New York, NY || *June 2022 - August 2022*

- Applied SQL functionalities through data processing platforms to filter client electronic evidence.
- Observed the hosting and processing of client data throughout the eDiscovery life cycle.
- Developed a proficiency in technology tools used in KPMG Forensic engagements, such as Relativity and Relativity One.
- Assisted other forensic teams with onsite data collection, documentation, and content investigations.

University of Georgia, *Undergraduate Research Assistant*

Athens, GA || *September 2021 - May 2022*

- Researched and designed an automated, adaptive tutor for use in a discrete mathematics course.
- Collaborated on effective teacher to student dialogues.

Project: “Onchord”

iOS Social Music App || *February 2026 - Present*

- Built an end-to-end iOS social platform enabling music discovery through real-time feeds and ranking systems.
- Designed and implemented core systems including social feed architecture, search, and Spotify OAuth with secure authentication.
